

Q-FLEX

Together, we build
the technology
of the future

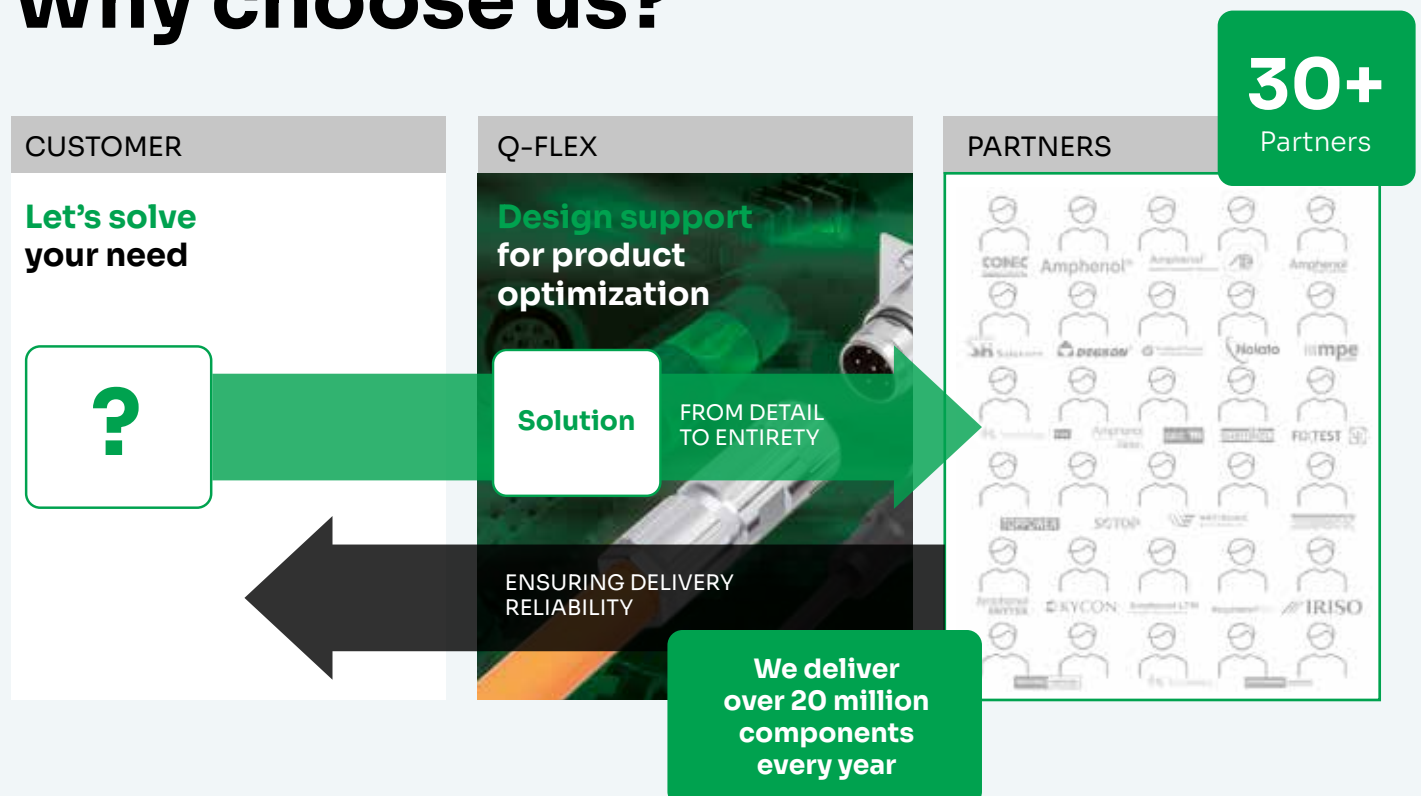

2026

Why choose us?

PRODUCTS:

CONTACT US

Why choose us?

Our values are based on cooperation and caring about our customers.

We are proud to be able to say that most of our team members have been with us for a decade already, and some since the founding of the company.

Quality and flexibility, from which we have derived our name, form the foundation of our business.

Mission and vision

Our mission is to use our expertise to facilitate your company's business and your experts' work and to provide added value with our flexible services. We are committed to solve even the most difficult designing challenges together with the well-known partners in the field.

Our vision is to provide better product designing solutions and factory customization to ensure the best possible end-product. We are here for you.

Ilkka Ilola, CEO

Q-Flex was founded in 1996 to provide customers with specific solutions and electromechanical products by well-known international partners.

**We serve our
customers all
over the world**

**Warehouse
in Finland**

**200+
Customers**

**ISO 9001:2015
ISO 14001:2015
ISO 45001:2018**

**We deliver components to
many industries such as:**

Telecommunication Industrial Military

With our experience, better solutions

1.

Looking for
a solution to
your product
development
challenges?

2.

Let's solve it
together.

3.

An optimized
solution for
your product.

Our expertise,
experience
and network of
partners at your
service.

4.

Let's build
success
together.

Quality + Flexibility = Q-Flex

We are an importer of electronic components and we support companies in the electronics, automation and electrical industries all over the world.

We are committed to customer satisfaction by providing high-quality components and services. Our team is ready to answer your questions and help you find the component solutions you need.
